https://github.com/TeenageMutantCoder 🐙

A Full-Stack Software Developer that has over 2 years of professional experience building customer-facing, cloud-based, B2B SaaS (Software-as-a-Service) products with a focus on front-end web development using React. Proven to have strong leadership qualities as well as the ability and drive to learn new things quickly and independently. Can plan, read, write, and review code effectively. A responsible worker who can communicate well and work remotely with a cross-functional team.

Skills

Languages and frameworks: HTML, CSS, SASS, Styled Components, JavaScript, TypeScript, React, React Native, Next.js, Ruby on Rails, Rspec, Jest, Cypress
Tools: Node.js, NPM, Yarn, PNPM, Git, GitHub, Adobe Photoshop, Postman, Figma

Experience

MARCH 2022 – PRESENT
Software Engineer/Shop-Ware Inc.
- Worked remotely with agile teams of QA, Designers, Product Owners, and Software Engineers.
- Primarily worked on the company's Shop Management System built in React and Ruby-on-Rails.
- Helped build the MVP for TechApp by Shop-Ware, an Android/iOS app built in React Native.
- Helped build the MVP for Enterprise Manager, a React web application for repair shop enterprises that want an easier way to manage multishop operations.

JUNE 2021 – MARCH 2022
Web Developer/Self-employed
- Built websites for a local automotive business
- Created various web applications to further improve technical skills

Projects

Social App - https://social.stevon.dev/
A full-stack social media web application built using Next.js, TypeScript, TailwindCSS, Prisma, and tRPC.

Space Tourism - https://space.stevon.dev/
A responsive website built from a Figma design. Made using Gatsby, TypeScript, and Styled Components.
